## SEEDS Green Team

By: Zak Payne

For the past few weeks, Manistee High School's environment-helping club *Green Team* has been recycling cardboard and metal containers. *MAPS* serves lunch for many students everyday and that leads to the use of large metal containers. These containers vary from fruits and vegetables to cheese, ravioli, and various sauces.

The real importance behind these containers is the fact that they can be recycled. For years these large containers have been thrown out in large quantities. With help from *SEEDS*, the gathering of these used metal containers has been accomplished. From there *SEEDS/Green Team* collapses the cardboard boxes and flattens the cans so they can deposit these materials into a recycling center.

*SEEDS/Green Team* has a good amount of members, but they could always use more of them. Feel free to join at any time. They meet every Wednesday in the Commons Area to get a quick snack and begin to recycle shortly after. If you have any questions about the organization, you can ask *Green Team* President/Vice President: **Kristen Seymour** and **Hannah Sartor**.

*SEEDS* helps *Green Team* with projects and they are likely to help your cause too. If you have any questions about *SEEDS* you can contact the coordinator, **Kevin Summers**.
